Nicole Masters & Walter Jehne 2016 Tour

“Answers & Actions for Healthy Soils in a Western Australian Climate”

Cropping & Mixed Farming Forum

Keynote Speakers: Nicole Masters, Integrity Soils & Walter Jehne, Healthy Soils Australia

When?

Day One	Thursday 17 th March 9am-5pm	Boyup Brook
Day Two	Monday 21 st March 9am-5pm	York
Day Three	Wednesday 23 rd March 9am-5pm	Dandaragan

Cost?

\$50 (\$45pp for 2 or more). Pre-registration is essential for catering. RSVP: Monday 14th March

What to Expect?

Microbial processes and identifying the limiting factors to plant performance.

Combining the best chemistry, physics, biology and microbiology with sound farm practices.

Addressing and solving weed, disease and insect pest problems at their root causes rather than masking the symptoms with chemicals.

Local Issues and Local On-farm Solutions.

Speakers:

Walter Jehne – Soil Microbiologist & Soil Ecologist. Co-founder of Healthy Soils Australia & former CSIRO scientist. Walter's research since the 1970s has contributed science-based evidence for understanding plant and soil function that can be translated for farmers to reduce current soil degrading practices. www.healthysouils.com.au

Nicole Masters – Agro-Ecologist, Educator & Systems Thinker. Director/Owner of Integrity Soils, New Zealand. Nicole inspires and guides farmers into new and innovative ways to produce food with soil as a major driver for ecosystem health. www.integritysoils.co.nz
