

Crop Sequence Workshops

GRDC™

GRAINS RESEARCH
& DEVELOPMENT
CORPORATION

Geraldton - Monday 1 August 2016
Merredin - Tuesday 2 August 2016
Esperance - Thursday 11 August 2016
DAFWA Offices at 1:00pm

What is the most profitable rotation for your region?

What are the drivers for changing rotation?

**What tools are available to help you
get the best out of your system?**

What are the best farmers doing?

Come along and hear about the latest research, what the best farmers are doing and how to get the most out of your own system.

This will be an interactive workshop designed to give you the tools to appraise your own farming system.

This workshop will give you the knowledge to assess the risks and rewards and the confidence to try different break crops/rotations on your property.

Break crop project, outcomes, recommendations, tools and calculators	Mark Seymour, DAFWA
Paddock Measurements and records, what are the trends in the WA farming system	Greg Shea, DAFWA
Farm Rotations and grower profits. What are the profit drivers for choice?	Rob Sands/Ben Curtis, Farmanco
Agronomy and rotations, how the decisions are made. Where to from here? You've been given the information, now how do you tie it together?	Phil Smyth/David Cameron/ David Ward, Farmanco
Group Discussion: crop rotations and drivers
