

PRECISION AGRICULTURE EXPO

THURSDAY 27TH JULY 2017
@ CORRIGIN GOLF CLUB
FROM 9.00AM

Join our team of experts to learn how Precision Agriculture can help your farming operations

Topics include;

- Mapping, what's out there, what it can tell you and how you can use it to make farm decisions
- Using technology for weed control
- How CTF controlled compaction in Corrigin field trials
- Farmer accounts of PA adoption
- Soil pit assessment and discussion at a nearby farm

This is must-attend event is aimed at all farmers, advisors and researchers

A partnership with the Corrigin Farm Improvement Group & Wheatbelt NRM
