

## BEEN WORKING LIKE A DOG?

All jokes aside, at Lawsons Angus we understand how difficult it is in the tough times.

A drought is one of the toughest weather events to manage and we believe a problem shared is a problem halved. We would like to get together and chat about some of the issues you are facing and suggest some strategies to help in these tough times.

### Drought Strategies Workshop

1. Ration formulation for lactating, dry and weaned livestock
2. Early weaning – how early can you go?
3. Animal health / reproduction issues in a drought / low feed situation
4. Role of Genetics and its impacts
5. Rehabilitating paddocks affected by wind erosion
6. Boosting pasture production – grazing management, nitrogen, gibberellic acid
7. Crop Grazing
8. Government assistance – advice
9. Physical and mental well-being
