

# Moora-Miling Pasture Improvement Group

## Field Day: 12th September

2pm at Cranmore Park Sheds  
Moora-Miling Road

- **Remote Sensor Technology: Real & Now.** But how hard is it? How much? What is the price tag? With demonstrations.
- **Drones: Phase or Real Deal?** Featuring demonstrations of crop analysis using NDVI, pre-programmed water runs and use with stock

- **Live Export Slowdown:** What financial impact will this have on your business, & what system changes can you make to minimize the impact? We run the figures using different flock structure models
- **Pasture Manipulation Timing:** Early season, Late or not at all? Local MLA Producer demonstration site results have shown early spraying is most beneficial, with better late season feed & extended season by not needing to spray top.
