

SheepLinks FEED365

Producer Participatory Research and Development

1. Your group

Group name _____

Number of members _____

Contact person (name and role) _____

Address _____

Phone _____ Email _____

Group dynamics: Provide a brief description of the capability of the group including structure, a list of employees and their roles, specific interests of the group and any affiliations with other groups.

Feedbase research experience: Provide titles and brief descriptions of any feedbase projects conducted in the past 5 years. Please also include current and future commitments to feedbase projects.

2. Your proposed research

Title of proposed research

Clearly define the issue(s) the group wants to tackle: Include information on the feedbase options of most interest and the expected outcome for the grazing or farming system (e.g. what is the feed gap to be addressed?)

Experimental Site Information: Outline possible locations for the project (including production system and soil type). Please attach a map or approximate GPS coordinates.

Measurement capabilities: Outline your capabilities for measuring pasture biomass and animal production.

Proposed budget: Estimate of salary costs, major operating/input costs, extension costs etc (please list significant items).

		Year 1	Year 2	Year 3	TOTAL
Salaries	\$				
Consumables	\$				
Extension	\$				
In-kind ¹	\$				
TOTAL	\$				

¹Contribution from the Grower Group in salaries, land cost, fencing, seeds, fertiliser, etc

Signatures for application

I, Chair of this group, confirm that the group has read the “SheepLinks FEED365 Information Sheet” and support the application.

Group Chair Name: _____

Sign: _____ **Date:** _____

Note. Please attach any further information that will add value and understanding to your application.
